POLICY WORKING GROUPS AT THE BANK FOR INTERNATIONAL SETTLEMENTS

BCBS-IAIS Task Force on Systemically Important Banks and Insurers (TFBI), 2017-2018

Role: IAIS Secretariat Principal Coordinator, jointly with a member of the BCBS Secretariat

Function: TFBI objective is to address inconsistencies between the Globally Systemically Important Banks' (G-SIB) framework of the Basel Committee of Banking Supervision (BCBS) and the Globally Systemically Important Insurers' (G-SII) assessment methodology of the International Association of Insurance Supervisors (IAIS). It includes: (i) evaluating the coherence and comprehensiveness of the G-SIB and G-SII methodologies in assessing the systemic importance of banks and insurers; (ii) developing specific proposals to fill gaps and to address inconsistencies or unintended consequences in

the overall G-SIB and G-SII frameworks; and (iii) contributing to the development of the activities-based approach of the IAIS Systemic Risk Assessment.

IAIS Global Systemically Important Insurers (G-SII) Assessment, 2015-2016

Role: IAIS Secretariat Principal Coordinator of a Secretariat team supporting the G-SII Analyst Working Group and Advisor on implementation of the G-SII assessment methodology

Function: G-SII Analyst Working Group is responsible for conducting the analysis according to the GSII Assessment Methodology to develop recommendations to the Financial Stability Board on the designation of G-SIIs. The 2016 Assessment was conducted under the revised methodology, and the IAIS Secretariat contributed significantly to the development of the analytical tools, including cross-sectoral analysis of banks and insurers and systemic risk assessment of reinsurance.

Financial Stability Board Derivatives Assessment Team, 2017-2018

Role: Member of the working group

Function: The mandate of the working group is to assess whether adequate incentives to centrally clear OTC derivatives are in place. It examines the incentives to centrally clear for dealers as well as their clients (including financial and non-financial entities), and to reveal incentives that may be present for different asset classes or product types.

Financial Stability Board Evaluation of Effects of the Financial Regulatory Reforms on Financial Intermediation, 2017-2018

Role: Member of the working group

Function: The evaluation of the effects of G20 financial reforms on financial intermediation trends for different types of financing, with a specific focus on the investment in infrastructure.

Financial Stability Board Framework for Post-Implementation Evaluation of the Effects of G20 Financial Regulatory Reforms, 2016-2017

Role: Member of the working group

Function: The mandate of the working group was to develop the framework for the post-implementation evaluation of the effects of the G20 financial regulatory reforms. The framework serves as a guide for post-implementation evaluation work by the FSB and the standard setting bodies. It aims to guide analyses of whether the G20 financial regulatory reforms are achieving their intended outcomes and help identify any material unintended consequences that may have to be addressed.

Basel Committee on Banking Supervision Subgroup on the Inclusion of Insurance Subsidiaries of Banking Groups in Scope of the G-SIB Exercise, 2014-2016

Role: Member of the working group

Function: In the context of 3-year review of the BCBS G-SIB methodology, the group was assigned to analyze how the activities of insurance subsidiaries of banking groups that are outside of the regulatory scope of consolidation should be reflected in the G-SIB identification methodology and higher loss absorbency capital requirements.
